

AMIT KUMAR

Delhi, India

Phone: +91 6307411873 — Email: Amitbhardwaj26210@gmail.com

GitHub: me-amit2810 — LinkedIn: amit2810

Objective

Motivated B.Tech CSE graduate with strong skills in front-end development, JavaScript, ReactJS, and full-stack concepts. Experienced in building responsive web apps, UI components, and working with APIs. Currently expanding backend development and database knowledge to strengthen full-stack engineering capabilities.

Education

B.Tech (Computer Science Engineering) — Dewan VS Institute of Engineering and Technology 2021–2025

Senior Secondary (Science) — Jamuna Ram Memorial School (CBSE) 2020–2021

Secondary School — Suryabadan Vidyapeeth (CBSE) 2018–2019

Experience

Frontend Developer — Adkamp Marketing Solutions

Nov–Dec 2025

- Developed the complete frontend of Adkamp's marketing website using ReactJS.
- Built responsive, reusable UI components and optimized performance.
- Implemented routing, state handling, API integration, and improved UX flow.
- Collaborated with marketing team to meet branding and design requirements.

Industrial Training — Capgemini Centre of Excellence

Jul–Sep 2024

- Completed hands-on training in AI and Data Science using Python and ML tools.
- Worked on data preprocessing, visualization, and ML model development.

Projects

Next-Gen AI Learning Management System

- Developed an AI-powered LMS with personalized learning paths, analytics, auto-grading, summaries, and doubt-solving.
- Technologies: ReactJS, NodeJS, Express, Flask, Hugging Face API, Llama, MySQL, MongoDB, Docker.

Social Text Sentiment & Emotion Analysis

- Built an NLP system analyzing 100K+ tweets with 85% accuracy for brand and trend monitoring.
- Technologies: Python, Flask, NLP models, Hugging Face transformers.

Interactive Front-End Projects

- Created responsive web apps including BMI Calculator, Color Switcher, Digital Clock, Virtual Keyboard, Number Guessing Game.
- Focused on DOM manipulation, events, and interactive UI.

Skills

Programming: Java, C, Python

Web-technology: HTML, CSS (Tailwind), JavaScript, ReactJS, NodeJS

Database: SQL

Tools: GitHub, Postman, MS Office

Languages

Hindi (Native), English (Professional)
